CHICAGO, June 27.-Formal removal of International President C. P. Shea of the Brotherhood of Teamsters, has been de cided upon by the international executive board says the Post. Feared to Make Him a Martyr.

Feared to Make Him a Martyr. For weeks the international board has been opposed to Shea and his methods. Fear that the hove to depose the leader would make him a "martyr" among the rank and like and insure his re-election as president caused members of the board to postpone their action. Last night's unequivocal vote of the department store drivers and the striking express wagon drivers against accepting the latest settlement offers of the employers and the pulpable return to power of Leader Shea, so far as the rank and file of the teamsters is concerned, determined the board to act.

Charges Against Shea. Charges Against Shea.

The special charges against President Shea is calling a strike contrary to the constitution and making expenditures of the brotherhood's money contrary to the terms of the constitution and by-laws.

"I don't think they will do it." was the reply of President Shea when asked about the reported action of the board. "But what if they do? Will that settle the strike? I might be re-elected or I might take up one of the several offers that have been made to me.

"Enthemostra Allegad."

No Dishonesty Alleged.

The executive board does not charge Shea with dishonesty in handling the union funds: simply that his orders brought about expenditures that had to be made on account of calling a strike illegally.

Meanwhile the menace of a strike in-volving the 1990 Express and Furniture Movers union has not been removed from the situation.

Dillon and big brewery interests has re-Dillon and big browery interests has resulted in a settlement of the great battle of the State for payment of taxes in arreass, alleged to be due to the extent of over \$1,000,000. The compromise affects the 12,000 indictments already found by providing that they shall be submitted to the several courts without evidence, thus knocking the Prosecuting Attorneys out of \$10,000 fees.

The State sought by indicting the brewerles for every sale made without wholesalers licenses in the past five years to compensate its treasury for the loss of license fees in that period. The compromise does not affect the brewerles out of the State, who must pay a wholesale license.
